

EXAMINER'S AMENDMENT

Drawings

1. Figures 1-3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Amendments

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 16, line 18, "and intermediate" has been deleted and --and said intermediate-- has been inserted.

In claim 20, line 2, "biasing force" has been deleted and --biasing force of the spring-- has been inserted.

In claim 21, line 2, "biasing force" has been deleted and --biasing force of the spring-- has been inserted.

In claim 21, line 3, "position," has been deleted and --position.-- has been inserted.

In claim 27, line 4, "a biasing force" has been deleted and --a biasing force of the spring-- has been inserted.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: the primary reason for allowance is the inclusion of the limitation "further comprising a settable control arrangement having a dispensing position in which movement of the valve element is possibly only between said second position and said intermediate position and a non-dispensing position in which the valve element is movable into the first position" in combination with the other claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
